

6th Grade Digital Literacy

In 6th grade Digital Literacy we will be covering a variety of topics. All of the topics have to do with different ways to use Google. All of our students at South Newton have a Google e-mail account ,and as a result have access to all of the Google related uses that we will cover in this rotation class.

Some of the things that will be covered are Google Calendar, Google Docs, Google Forms, Google Presentations, Google Spreadsheets, and Google maps. By the end of 6th grade Digital Literacy rotation students should have a good grasp of these topics and the various uses of Google.

It is the goal of all our Digital Literacy classes to give students a knowledge and understanding of technology and to prepare them for college or careers after school. If you have any questions, concerns, or comments please feel free to e-mail or call me. I look forward to a great year of learning in Digital Literacy.

Please look over the classroom rules and expectations which are my webpage, and can be found on the schools website. Just go to middle school, then academics, then click on my name and go to Digital Literacy. There, you will find a link to look at the rules/expectations. Please sign, detach and send back the bottom portion of this paper with your son/daughter. If you do not have access to the internet let me know and I will gladly provide you with a hard copy. Thank you.

Mr. Randy Pontius
